

Seapoint Clinic
Centre of Dental Excellence

NEW PATIENT PACK · IMPLANT CONSULTATION

Welcome to *Seapoint Clinic*

A smile that feels like your own again.

BLACKROCK · SANDYFORD · DUBLIN

Shaping smiles. Changing lives.

WHAT IS POSSIBLE

These were all first visits *once*

Every one of them sat where you are about to sit.

Jacinta

A FULL ARCH, FIXED, IN ONE DAY

"I was so worried. Seapoint put my mind at ease very quickly."

Patrick

IMPLANTS, REPLACING LOOSE DENTURES

"I was such a coward before coming here. Now I recommend them to everyone."

Carmel

DENTAL IMPLANTS

"I even bought lipstick for the first time in twenty years."

YOUR SURGEON

Dr Vaidas Varinauskas, PhD

CLINICAL LEAD · REGISTERED SPECIALIST IN ORAL SURGERY

A PhD in the biomechanics of dental implants, a Master of Oral Implantology from Goethe University in Frankfurt, and thirteen papers published in peer-reviewed journals. He is a member of the ITI, the international body for implantology. You can hear him on our podcast on zero bone loss and digital workflows.

Ask to see more. There are over a hundred cases in our gallery and we will happily find one that looks like yours.

SMILE GALLERY

OUR PHILOSOPHY

To help you keep your own teeth. For life.

Everything follows from that. We are not the cheapest dentist in South Dublin. We aspire to be the most thorough.

Everything under one roof

Surgery, orthodontics, periodontics and general care in one building. Nothing gets posted around the city.

You see what we see

Your own scans and images up on a screen in front of you, and we work out what's going on together. You're not told about your mouth. You look at it.

Two surgical microscopes

New this year, one in each clinic. Where a case calls for it, a hairline crack becomes visible years before it becomes pain, and visible to you as well as to us.

Specialist-led

Our clinical lead, Dr Vaidas Varinauskas, is a Registered Specialist in Oral Surgery. Difficult work is done by people who trained for years longer to do it.

RECOGNITION

Private Healthcare Awards

Dental Practice of the Year

in association with The Irish Times

- Irish Dental Awards — Most Attractive Clinic & Best Website
- Irish Academy of Implant Dentistry — Award winner 2025
- Invisalign Diamond Provider — top 1% worldwide

WHAT PATIENTS SAY

★★★★★

Over 500 five-star reviews on Google. Thirty-eight patients have said why on camera. Watch them at seapointclinic.ie/reviews/patient-reviews

OUR GUARANTEE

Three years on implants, crowns, bridges and veneers. Two years on bonding. All we ask is that you come to your reviews.

WHAT TO EXPECT

Your implant consultation

The first proper look at the bone underneath.

YOUR WRITTEN PLAN

> Staged and timed, within one week

Your case may be discussed by more than one of our specialists before the plan is written.

01

A 3D scan of the actual bone

Our own CT scanner. Not a flat x-ray, but the real height, width and density.

02

You see it yourself

For most people this is the moment it finally makes sense.

03

‘I was told I had too little bone’

We hear it constantly. It’s often true of ten years ago and not of now.

04

Every option, including doing nothing

What each costs today, and what it’s likely to cost in five years.

05

Digital planning and a surgical guide

Your implant is positioned on the 3D scan in software before anything is done. We then print a guide that makes the surgery follow that plan to the millimetre.

Fill in your forms before you come

We’ll email them over. Five minutes at home is five more minutes with your dentist. If you’d rather do them here, arrive fifteen minutes early.

Bring your medicines list

Including anything from the pharmacy.

Say if you’re anxious

Just tell reception. It changes how we run the appointment.

PRACTICAL THINGS

Finding us

Blackrock

23 Seapoint Avenue, Blackrock,
Co. Dublin, A94 H2R1
