OUR PHILOSOPHY

To help you keep your own teeth. For life.

Everything follows from that. We are not the cheapest dentist in South Dublin. We aspire to be the most thorough.

Everything under one roof

Surgery, orthodontics, periodontics and general care in one building. Nothing gets posted around the city.

You see what we see

Your own scans and images up on a screen in front of you, and we work out what's going on together. You're not told about your mouth. You look at it.

Two surgical microscopes

New this year, one in each clinic. Where a case calls for it, a hairline crack becomes visible years before it becomes pain, and visible to you as well as to us.

Specialist-led

Registered specialists in oral surgery and orthodontics. The difficult parts of your treatment are done by people who trained for years longer to do them.

RECOGNITION

Private Healthcare Awards

Dental Practice of the Year

in association with The Irish Times

- Irish Dental Awards — Most Attractive Clinic & Best Website
- Irish Academy of Implant Dentistry — Award winner 2025
- Invisalign Diamond Provider — top 1% worldwide

WHAT TO EXPECT

Your orthodontic consultation

An appointment with our orthodontic team, and it’s free.

FEE

Complimentary

YOUR WRITTEN PLAN

Costs and options, within one week

01

A 3D scan, no impressions

A wand passes over your teeth and your mouth appears on the screen beside you.

02

You see the likely finish

We simulate the result before you commit to anything.

03

A specialist assessment

Your bite, jaw joints and gums, not just the crowding. Cases treated on looks alone are the ones that relapse.

04

A straight answer

Sometimes Invisalign. Sometimes braces do a better job faster. Occasionally you don’t need treatment at all.

Fill in your forms before you come

We’ll email them over. Five minutes at home is five more minutes with your dentist. If you’d rather do them here, arrive fifteen minutes early.

Bring your medicines list

Including anything from the pharmacy.

Say if you’re anxious

Just tell reception. It changes how we run the appointment.
